

Waleed Hassan

Mobile App Developer (Android Flutter)

✉ waleed.hassan.dev@gmail.com ☎ 03235067742 📍 Lahore Pakistan

Profile

Results-driven **Senior Mobile App Developer** with **5+ years of experience** building high-quality **Android (Kotlin, Jetpack Compose)** and **Flutter** applications. Expert in **Clean Architecture, MVVM/MVI, API integration, performance optimization, secure data handling, and CI/CD automations**. Skilled in delivering **scalable, maintainable, and user-focused** cross-platform and native apps with strong business impact. Passionate about crafting clean code, solving complex problems, and delivering seamless mobile experiences across Android and iOS.

Skills

Mobile Development

- **Flutter, Dart, Kotlin, Java, Jetpack Compose**
- Android & iOS app development
- Hybrid & cross-platform app architecture
- UI/UX implementation & animations

State Management (Flutter)

- Riverpod, Provider, Bloc

Security

- SSL Pinning, HTTPS, AES Encryption, ProGuard, R8

Tools & DevOps

- **Android Studio, VS Code, Firebase Suite**
- Git, GitHub Actions, **CI/CD pipelines**
- Crashlytics, Analytics, Remote Config

Architecture

- **MVVM, MVI, Clean Architecture, SOLID Principles**
- Modular codebase design
- Scalable multi-module project structures

Networking

- **Retrofit2, OkHttp, REST APIs, GraphQL, Postman**
- Real-time sync, socket communication, WebRTC

Testing

- **JUnit, MockK**
- Unit, widget, and integration testing

Professional Experience

Mobile Developer (Flutter + Android), Hawknest Lab — Lahore, Pakistan

09/2023 – Present

- Engineered modular Flutter architectures improving code reuse by **40%**.
- Implemented **Riverpod** for predictable, scalable state management.
- Integrated **Firebase Auth, Firestore, Messaging, Analytics** for unified backend.
- Developed high-performance Android features using **Kotlin + Compose**.
- Led API integrations ensuring seamless real-time sync across devices.
- Reduced release cycle time by **25%** using CI/CD automation.

Lahore, Pakistan

Android Developer, ElGrocer (Grocery App, High Traffic)

02/2020 – 08/2023

- Rebuilt large-scale grocery app with **Kotlin, MVVM, Room DB**, dramatically improving stability.
- Optimized network stack with Retrofit/Coroutines — **40% faster API responses**.
- Implemented Crashlytics & App Distribution pipelines.
- Improved real-time delivery tracking with Google Maps SDK.
- Reduced release cycles by **25%**, boosting team productivity.

UAE (Hybrid)
